EROTIC FOREPLAY HYPNOSIS FOR FEMALE SENSUALITY

Erotic Foreplay Sexy Oil Massage for women. This Foreplay Sex Massage script shows you exactly what to do to take your partner to orgasm. It incorporates all the senses. Erotic Foreplay uses your voice, your hands, and the senses of smell, touch and taste and imagination to create a sensuous sexy foreplay game. You can use erotic massage to give her a full orgasm, or as the first stage for longer sexual play.

Hypnosis Sex is gentle and consensual and this approach lets you combine stroking and caressing with hypnotic suggestion until she is almost at orgasm.

What you do after that is up to you. Expect to get invited back. Soon.

The Setup	
Success in sensual sex depends on preparation.	
Make sure the room is warm and free from drafts.	
Make sure you won't be disturbed - turn off the phone, alarms, the TV, anything that is likely to distract you and break the erotic hypnotic spell.	
You can use very soft instrumental music for background.	
Turn the lights down, or use candles to set the mood. Make sure there are no lights shining in her eyes.	
If you have them, use scented candles to create a sensuous atmosphere.	
Get some baby oil or scented massage oil. If you don't have oil you can use moisturizing cream, but it is not as easy to apply. Do not use the scented oils designed for burning in lamps.	
Make sure the oil is at body heat. You can stand it in some warm water before you start, or you can warm it against your body for a few minutes.	
Best to have her lying on a bed or a sofa or couch where she can stretch out.	
Have her stretch out naked lying on her back on an old sheet or some towels. The massage oil always spills, so do not use the regular bed coverings, and use something to protect furnishing fabrics as they can get stained with oil.

Ok. Now close your eyes and take a deep breath. That's good.		eyes closed
Now take another deep breath and really relax. Let it all go. Leave everything else to me.		beginning of induction
The fantasy massage induction		
And now I wonder if you can imagine a warm day somewhere. You are on vacation. You are lying in the sun. Imagine lying in the sun relaxing... on a boat... far out at sea... nothing around for miles... you are lying there sunbathing naked... like a film star on a yacht... you are pleasantly relaxed... comfortable...		
and as you feel the sun gently warming your body... you are relaxing even more... like lying on a soft fleecy cloud... with a little gentle rocking motion ... making you even more relaxed...		
and as you imagine yourself on that boat... a boat drifting away... floating... gliding...	V	
[start dripping a few drops of oil on her belly]		
you become aware of someone kneeling beside you... and a few drops of oil slowly spreading on your skin... and a hand stroking and caressing you		focus of attention
[start rubbing the oil on her stomach in long slow circles.]		
and as that hand starts to circle slowly you are getting more relaxed... dreaming of being on that boat... warm and comfortable...	D	Link relaxation to movement
and focusing on that slow soft movement makes you feel detached... and all of your attention is drawn to following the movement of that hand... as it glides slowly softly across your skin...		focus of attention
and as that hand circles round and round you can feel yourself slowly letting go... just enjoying the sensation... nothing to think about... only the soft warm feel of that hand... smooth and gentle...	>	movement = relaxation
and each stroke of the hand is leading your mind away... relaxing deeper and deeper now...	D	
[now start rubbing one finger or thumb down her tummy, then lift it and start again at the top, over and over.]		
and as you relax more... each stroke is taking you down and down... feeling that movement makes you more detached...		
and every sound you hear will take you deeper and deeper...		audio deepener
and every touch on your skin now takes you deeper and deeper...		kinesthetic deepener
and every breath now is taking you deeper and deeper...		breathing deepener
more relaxed... that's right... letting go... that's the way it's supposed to be...		Reassurance
Sensual Massage Section		
[drip more oil on between her breasts. Start massaging in tiny circular movements]		
and now focus on the movements on your chest. Become aware of those		

	movements... and as you become aware of those movements... you can become aware of something else... a feeling stirring deep inside you...	
	[now start making the circles bigger, going over the rise of her breasts.]	
	and feeling that movement on your breasts... becoming aware of a feeling starting in your breasts... and each touch passes... that feeling grows stronger and stronger...	
	[start rubbing the oil around her breasts, softly rising up towards, but never touching, the nipples.]	
	and you are becoming more and more aware of that feeling now... your breasts are beginning to fill... you are enjoying that sensuous feeling... growing more and more with each touch...	
	[start circling around the aureole, with a very delicate touch, avoiding actually touching her nipples, but very close in long slow circles.]	
	now you can feel the heat there... filling and rising and aching for more...	
	[now put more oil on her tummy, and begin to rub around it with the flat of your hand... more long slow circles.]	
	and now that feeling is moving down... down to where the hand is rubbing... circling... feel that warmth and passion rising up...	
	and as the hand moves round each movement lets you feel more intense... more and more feelings coming up now... and as that hand moves down your body... down to that special area... you feel your body getting more aroused... more sensuous... more alive... you feel yourself getting warm and wet... and every movement of that hand is making you more sensitive... to the feeling on your skin... to the feeling in your body...	
	[start rubbing around her genital area... not on it... around it.]	
	and now you are becoming aware of a need... a compulsion... a wanting... a desire...	
	[start rubbing the oil on her thighs... drawing your oily fingers up her legs in long slow strokes.]	
	and as each strokes rises up your thighs... you feel that passion rising in you... making you soft and wet and open and ready...	
	ready to climax... ready to give and receive... all your feelings now concentrated in that one special private area... and each stroke on your thighs is making you feel special... ready... wanting... to open to receive and thrust and every movement every sound every feeling is making you more aware of your needs... to be touched to be caressed to be filled...	
	and all that feminine power is opening up now... you feel your body ready to quiver to throb and move and thrust as the feeling gets stronger and stronger...	
	Reorientation section	
	[continue stroking and suggesting for as long she can take it... or lean your body over hers and kiss her deeply... and just see what happens... enjoy.]	
	When you are both done, wrap yourselves in the sheet or towels. Lie close beside her with your arms around her, you head against hers and hold her for as long as she wants.
